Education

De La Salle University – Dasmariñas — BS in Computer Science

📅 2015 - 2019

Experience

RAMP DeFi Protocol LTD — Senior Front-End Developer

📅 Feb 2024 - Sept 2025

React TypeScript TailwindCSS Chakra UI Rust GraphQL Node.js Wagmi

- Improved and expanded LeverFi platforms with Burst Finance and Neon LeverFi integrations.
- Crafted **static websites** and dynamic **server-side web applications**, including Earn The Night (static) and Parabolea Dashboard (server-side stock-market platform integrated with Interactive Brokers (IBKR) for real-time data).
- Delivered scalable front-end and UI/UX enhancements.
- Developed **Progressive Web Apps (PWAs)** such as OptionsBoost, a stock-options dashboard for strategizing, delivering offline capability and an app-like user experience.
- Contributed to **Rust-based backend services**, integrating high-performance logic with front-end apps.

Oost & Voort — Front-End Specialist

📅 Feb 2021 - Dec 2023

React TypeScript Vue Web3 TailwindCSS Chakra UI Node.js GraphQL

- LEVER Finance – Built the **blockchain trading platforms**, leading front-end UI/UX with back-end exposure.
- RAMP DEFI – Maintained and added new features for the \$90M platform; contributed to build v2.
- The Wine Club – Developed a **custom e-commerce** and blog site tailored to client requirements.

Socioking Inc. — Junior Software Developer

📅 Nov 2019 - Jan 2021

PHP Node.js WordPress Backbone.js Marionette.js Zurb Foundation

- Designed and developed UI/UX for the membership and reseller e-commerce web apps
- Enhanced the e-commerce platform using custom WordPress (PHP) and improved UI design
- Built responsive product landing pages in WordPress using hooks and filters for custom functions.

Featured Project

LeverFi

React Chakra UI TypeScript Solidity Wagmi Node.js Websocket Motion

LeverFi is a decentralized finance (DeFi) protocol that allows users to leverage trade assets (e.g. BTC, ETH, LP tokens) using up to ~10x leverage while also earning yield from deposited collateral.
